**Waste Electrical and Electronic Equipment Declaration for Integrated Circuits
Directive 2012/19/EU Effective on February 14, 2014**

The WEEE Directive aims to raise the level of recycling of electrical and electronic equipment (EEE).

Power Integrations depends on its contract manufacturers to manufacture the integrated circuits that are shipped to retail/end use customers and is committed to preserve, protect and improve the quality of the environment, to protect human health and to utilize natural resources prudently and rationally.

Power Integrations requires all its contract manufacturers to comply with all applicable laws and regulations regarding prohibition or restriction of specific substances/minerals, including the recycling program.

Power Integrations has a licensed waste company that recycles computers and products. All contract manufacturers, likewise, recycle the products.

A handwritten signature in black ink, appearing to read "Sunny Gupta".
